Experience

MRSoft International Nig. Ltd.

Full-stack web developer (MERN) stack
January 2022 - Present (2 years 5 months)
Port Harcourt, Rivers, Nigeria

Meeting with the development team to discuss user interface ideas and applications.

Reviewing application requirements and interface designs.

Identifying web-based user interactions.

Developing and implementing highly responsive user interface components using react concepts.

Writing application interface codes using JavaScript following react.js workflows.

Troubleshooting interface software and debugging application codes.

Developing and implementing front-end architecture to support user interface concepts.

Monitoring and improving front-end performance.

Documenting application changes and developing updates.

Freelance Software Developer
September 2018 - April 2022 (3 years 8 months)
Aba, Abia, Nigeria

As a freelancer I have worked on projects using a couple of web development tools such as HTML5, CSS, Bootstrap, Sass, Javascript, Reactjs, PHP, Ruby, Ruby on rails, etc.

Port Harcourt Agents
Frontend Engineer
December 2019 - November 2021 (2 years)
Portharcourt Nigeria

A property company in the heart of Rivers State, Nigeria that solves the problem associated with getting a house for rent or purchase

Tech: HTML5, Bootstrap, Javascript, ReactJs, AngularJs, and Docker

I designed and built the front end from the ground up, using ReactJs and Redux, HTML5, Bootstrap

I consumed and contributed to a RESTful API built with NodeJs and its associated dependencies and containerized it with Docker.

I wrote unit and integration tests using jest.

I followed the agile methodology and followed every industry standard.

Andela
